

# The Fast Lane to EUAs & GOs

*Instant trading*

# The Existing Routes.

## ICE / EEX

Major Exchanges

- ✗ Six-figure membership fees
- ✗ Clearing deposit requirements
- ✗ Complex technical onboarding
- ✗ Must trade large volumes to justify cost
- ✗ Built for institutional desks only

## Bank

Traditional Route

- ✗ Opaque pricing & hidden spreads
- ✗ No live order book visibility
- ✗ Bilateral risk — no settlement protection
- ✗ Slow execution, phone-dependent
- ✗ Fees buried in the spread

## Brokers

Status Quo

- ✗ High time involvement
- ✗ Opaque pricing
- ✗ Not live trading on screen
- ✗ Fees can be unclear
- ✗ No edge

VIRIDIAN EXCHANGE

THE SOLUTION

# Viridian Exchange.

## Direct access. Zero barriers.

A MiFID II regulated Multi-Traded Facility (MTF) — the same legal framework as ICE or EEX, at a fraction of the cost and complexity. Backed by 175 years of AFS Group financial expertise.

**1 Year**

In business &  
scaling fast

**175 Yrs**

AFS Group  
financial heritage

**MiFID II**

Live bid/ask — transparent pricing

- M1 & M4 maturities
- Settled within 2 working days of expiry.
- Hydro, solar, wind - multiple vintages
- Support or Non-Supported
- Full audit trail for sustainability reporting

# How Viridian Works

01

## Regulated Venue

AFM-licensed MTF — same legal framework as ICE or EEX, without the six-figure entry cost.

02

## Live Order Book

Place market or limit orders. Real-time anonymous matching. Best price — always visible.

03

## Instant Execution

No broker in the middle. When bid meets ask, the trade fires automatically at that price.

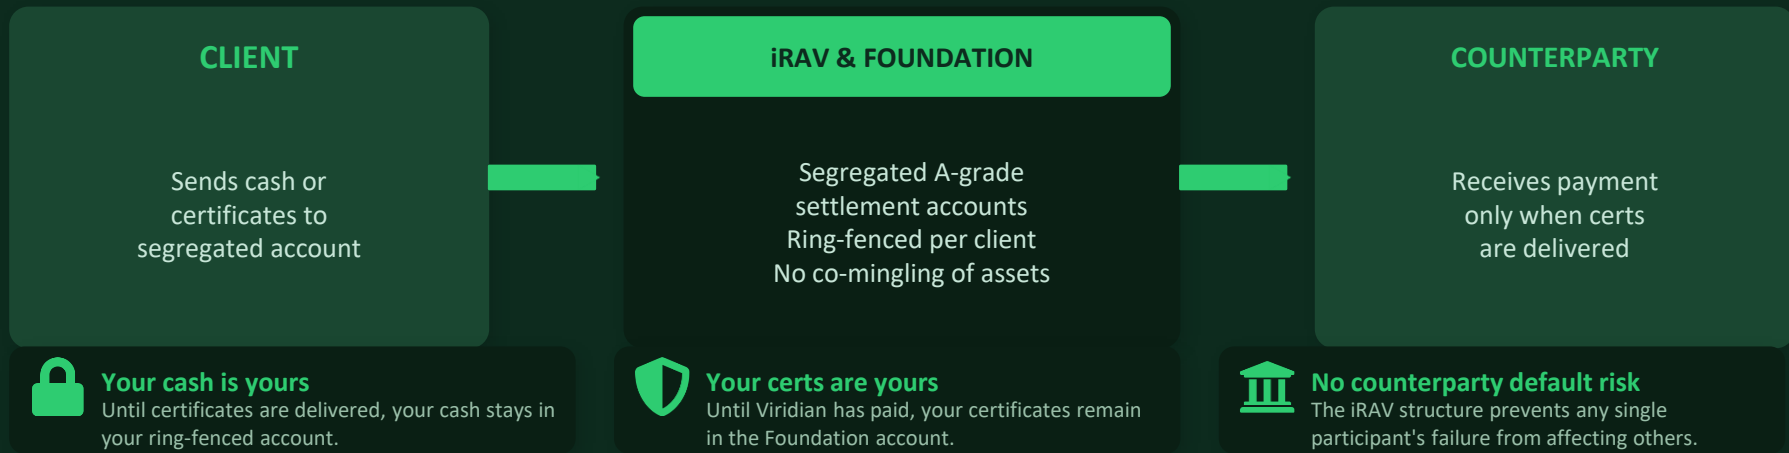

04

## Safe Settlement

Segregated A-grade accounts. Your cash & certs are protected until full delivery. Zero default risk.

# iRAV & Foundation. Built to eliminate risk.

Viridian flows through a protected settlement structure — the iRAV (Individual Ring-fenced Asset Vehicle) and Foundation setup. Your money and certificates are always yours until the other side performs.

# Who Viridian Serves

## Industrials & Corporates

ETS / CBAM compliance obligation. Buy directly at a transparent price — no broker desk required.

## Aviation & Shipping

EU ETS and FuelEU exposure. Regulated direct access — faster and cheaper than bilateral.

## Consultants

Give clients an auditable, regulated venue with a full trade record ready for external reporting.

## Traders

Live EUA & GO order book. Tight spreads, anonymous matching, no membership fees.

## Asset Managers

Add EUAs, GOs and climate credits to portfolios through a MiFID II custody-protected exchange.

## Utilities

Manage GO obligations and carbon positions from one venue, one live dashboard.
